## WORK EXPERIENCE

### Frontend Web Developer / Designer

BestUPay

Nov 2023 - Feb 2024

- **Frontend Development:** Worked as frontend web developer and worked on multiple projects along with the BestUPay's own website.
- **UI/UX Design:** Collaborated and created web designs on Figma according to client requirements and also to improve the existing designs.
- **Responsive Design:** Implemented responsive design principles to ensure that BestUPay's applications are accessible and user-friendly on all devices and screen sizes.
- **Cross-functional Collaboration:** Worked closely with clients and other developers to deliver top in class products and applications.
- **Performance Optimization:** Optimized the performance of BestUPay's applications, including reducing load times and improving overall responsiveness.
- **User Feedback & Improvement:** Gathered and analyzed user feedback to identify areas for improvement, leading iterative development cycles to continuously enhance BestUPay's applications based on user needs.

### Frontend Developer & Designer

Freelancing

2023 - Current

- **Client Collaboration:** Collaborated with clients to understand their needs and requirements, translating them into functional and visually appealing website designs.
- **Responsive Design:** Ensured that websites were responsive and optimized for various devices and screen sizes, providing a seamless user experience across platforms.
- **User Interface Development:** Developed user interfaces using HTML, CSS, and JavaScript, focusing on creating intuitive and easy-to-use designs.
- **Performance Optimization:** Optimized website performance, including page load times and overall responsiveness, to enhance the user experience and SEO rankings.
- **Quality Assurance:** Conducted thorough testing and debugging to ensure the websites were free of errors and met the clients' expectations before deployment.

### Community Manager

Developer Augmentation Hackathon by  
Quine

Nov 2023 - Dec 2023

- **Discord Creation :**Created a discord server from scratch and added channels, roles and bots as required.
- **Community Management:** Helped setup important messages like personalised welcome message and elevated community engagement.
- **Event Management:** Managed the offline event of Developer Augmentation Hackathon.
